

Orion to take shape soon

Since the refurbishment of the Orion Towers in Edenvale, residents have wondered what has been happening with the apartments.

According to Orion Group's Mr Franz Gmeiner, the refurbishment and remodelling of the Orion Towers is complete.

"The development consists of 90 apartments and five triplex penthouses on the rooftop," he said.

He added that three of the five penthouses have been sold for more than R3-million each and the transfers are in progress.

"All 90 apartments were sold at prices ranging between R490 000

and R850 000. As a result of the tightening economic circumstances, a small number of buyers defaulted," Mr Gmeiner said.

The remainder of the eight units are being marketed by Christa Steyn of Pam Golding.

"Most of the buyers are in the process of taking occupation themselves or have purchased for letting purposes. The activity in the towers will increase significantly. We are also in the final stages of the redevelopment plans for the retail centre with some national and franchise stores taking spaces," Mr Gmeiner said.

Unique Carbonated Cleaning Process

- No steam, shampoo or powder used.
- Dries rapidly, usually within an hour.
- Specialists in treating difficult stains.
- Upholstery and leather/-vinyl cleaning.
- Persian and oriental rug cleaning.
- Carpet and upholstery protection.
- Mattress cleaning (dust mite treatment).
